

The weather was great.
I, the secretary got us
in by getting wristbands
from the Copdock committee.
I drove my car an i10
with all the setup equipment
to the event from Kirby Cane
Shore I lived.

We setup in good time
next to Essex HOC &
Poland came & introduced
himself.

I finally sat in my seat
& was opening my packet

of tomatoes offer the
crew who also came ✓
fat with the Gazebo.

We began chatting to
each other & reacquainting
via small amounts of
banter.

The conversation flowed
around sculpting, some
politics, some talk of AI.
I mentioned I was embarking
on a PhD. I guess if my
Thesis passed inspection!

would become a Doctor.

After chatting to as people
came to investigate our
Stall we handed out flyers
we did not gather intelli-
gence other than word of
mouth.

One of the stall crew
purchased a Badge & a
Prak. - The only sale of
the day.

The Chairperson arrived
as the day wore on &

Gave us some ideas.
Also became a popular
meet & greet person.
we got to about 3:30pm
& we put the gazebo
away in record time
& I packed the car
and at 3:46pm I
vacated.

I got home later & so
did the helpers without
mishap.

David
